RAVE REVIEWS FROM VIRTUAL EXPERIENCES WITH ALEX

KIMBERLY LIEB, TRAINING MANAGER

Johnson & Johnson, Medtronic

"As someone with 17 years of experience in training and development that knows the challenge of keeping an online presentation engaging, I had operated by the learning and development gospel that you shouldn't do a virtual session longer than 90 minutes and because of our time together. Alex had me questioning all that have believed about that belief. If you are looking for a captivating virtual experience that teaches, transforms and moves teams to action, I highly recommend gathering with Alex and your group on your favorite virtual platform of choice in the future."

JORDAN MASTEN, LEADERSHIP & CULTURE DEVELOPMENT SPECIALIST

Nebraska Furniture Mart

"I had the opportunity to experience a virtual 3-day leadership development workshop conducted by Alex and with 18 hours of content planned I wasn't if I was going to be able to learn in that environment and stay engaged - boy was I wrong! From start to finish, RBL was taught with professionalism, patience, and high energy! You don't even realize you are in the comfort of your own home while learning this awesome content. I was able to ask my questions in the chat setting and we had lots of great group discussions. The pace of the course was great, we took appropriate breaks to stretch and refresh and anything we didn't understand fully could be discussed during the break or at the end of the day. Overall, my virtual experience with Alex was incredible and mindshifting!"

TOM LOWERY, PRESIDENT, BUILDING CONTROLS SYSTEMS

Legrand North America

"We were halfway through a 4-part leadership series with Alex where he was facilitating full-day on-site sessions when the COVID crisis hit. In response, we quickly pivoted and moved the remaining two sessions to a virtual experience to support our leaders as we felt this training was more important now than ever during these unprecedented times. We just finished our first virtual experience and our leaders feedback was very positive. Alex was able to mix the Reality-Based concepts with relevant examples giving our leaders simple tools to facilitate even more clarity and problem-solving. The session was interactive as Alex kept the audience involved with Q&A, tools, and activities that are tailored to the specific needs of our business."

JAMIE HOWER, MANAGER, TALENT DEVELOPMENT

Monument Health

"I cannot speak fondly enough about our experience with RBL. As far as a discussion about roll-out, I am leading our internal labor pipeline COVID team and am back to back 12 hours a day finding and training caregivers to prepare to take on all sorts of roles in the (probable) event of an ongoing patient surge. I will not be able to have a conversation in the near future."

I do believe that our work over the last 4 years both virtually and in-person with Alex, Cy and team has DRASTICALLY impacted our current situation in a positive way. I've heard A LOT of "you can choose joy or misery even in our current situation" I've seen people stepping up without drama (where they wouldn't have prior), and there has been an overwhelming sense of teamwork and curiosity - which is a change from opinion-based verbal vomiting in times of challenge for sure! Additionally, I personally feel more empowered to say what needs to be said in this emergency circumstance because of the trust built through drama-reduction efforts."

CLINT S. RUDY, DIRECTOR OF LIBRARIES

Suffolk Public Library

"We had Alex pop in virtually for a one-hour keynote at our executive team retreat to introduce the research around navigating drama in the workplace, cultivating accountability and increasing readiness for change.

Alex's presentation added a perfect dynamic around our leadership development theme and he was able to tailor the core content to match our specific needs as well as give some actionable ways to lead our people during the ever challenging environment of COVID. The session was naturally interactive and what was most impactful was that, in an hour, each executive left with 2-3 actionable tools/strategies that they were able to use to coach and manage the energy of their teams in a more effective way moving forward!"
